

Andreas Meyer and 50 co-authors

Particle Filter Retrofit for all Diesel Engines

2008, 450 Seiten, 319 illustrations and 40 tables, €66,00, CHF 109,00
(Haus der Technik Fachbuch,97)
ISBN 978-3-8169-2850-8

Contents:

Health Effekts – Technical Objektives – Physical Fundamentals –
Particle Measurement – Filtration Physics – Properties of Filter Media -
Regeneration Technologies – Application Techniques – Verification-of
Filtration Systems – Application Experience – Secondary Emissions –
Combined Procedures DPF + DeNOx –Filtering the Cabin Air –
Publications and Contacts

The Authors:

The authors are internationally active industrial and R&D experts in this rapidly developing field.
